

WHAT MEASURES ARE CURRENTLY VALID AND WHAT KIND OF EVENTS CAN WE ORGANIZE?

According to the Ordinance on Interim Measures for the Prevention and Control of Infections with Infectious Disease COVID-19 (Official Gazette of the Republic of Slovenia No. 22 of 19 February 2022), the provisions of the Decree and Hygienic Recommendations for the Prevention of Transmission and Spreading SARS-CoV-2 virus infection for events and happenings as published by the NIJZ need to be considered when organizing events.

Important guidelines/obligations for the organizers are:

- wearing masks indoors;
- protection (glass, plexiglass) at cashier and reception desks;
- organizing the event in such a way that the flow of people enables ensuring the distance.

We can also help you with the implementation of all measures by advising on the event organization by reviewing all currently valid measures to prevent the spread of COVID-19 infections. Below there is an overview of the measures and our solutions to help you.

CURRENT MEASURES AND INSTRUCTIONS OF THE NATIONAL INSTITUTE OF PUBLIC HEALTH (NIJZ)

All participants must be healthy.

Safety distance 1.5-2m between participants in a seated set-up.

Safety distance 2m between participants in a standing position / when moving around.

Frequent hand washing and disinfection.

Mandatory use and properly installed surgical or FFP2 masks indoors and outdoors if a minimum distance of 1.5 m is not possible to maintain (for children under 6 years of age and speakers/performers masks are not mandatory).

Directing the flow of visitors in such a way that the possible formation of blockages can be avoided. Separate entrance and exit are recommended for visitors.

Effective and frequent ventilation, cleaning and disinfection of the halls and toilets (switched off dryers).

Installation of safety (plexi) glasses / partitions at the box office / reception / registration / speaker's desk.

Placing valid measures, warnings and protocols in case of possible infections on visible places.

Organizing the event in such a way that the flow of people enables ensuring the distance.

HOW CAN WE HELP

We can provide devices to measure body temperature.

We can provide an allowed/recommended number of visitors/participants per square footage as well as the layouts and drawings for the set-up needed in the individual hall.

We can provide an allowed/recommended number of visitors/participants per square footage.

We provide disinfectants for visitors.

We offer masks to the organizer on a small scale free of charge (up to 50 masks).

We can provide various logistics options and prepare drawings accordingly. We can also offer advice on the event organization.

We take care of the ventilation, cleaning, disinfection of touch points and switching off the dryers during the event.

We place the protective plexi glass on the desired surfaces/furniture equipment.

We place signs on visible places for visitors.

We help with advice on how to design the event.
